Pearlie is an optimistic, light-hearted fairy who sees the good in everybody, but often gets into situations because her desire to help is larger than her capacity to deliver. Since Pearlie was appointed by Fairy Head Quarters (HQ) to keep Jubilee Park in sparkling order she has constant challenges with her basic goal of keeping everyone happy and making sure the park functions smoothly. | Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | On the Spot was created by the award-winning producers of the long running Educational and Informational show, Animal Atlas, now in its seventh successful season of national syndication. Last year, the National Governors Association and Council of Chief State Officers released the Common Core State Standards Initiative, an attempt to set a national curriculum to bridge the standards gap between states. The content of On the Spot, a 30-minute E/I program for teens ages 13+, is based on the Common Core State Standards. The show uses an entertaining on-the-street format to test how well young people know the information contained in their own national curriculum. Then, On the Spot explains the answer to each question. The pedagogical approach of testing first and explaining the answer second has been shown to enhance retention and understanding. On the Spot challenges viewers to recall middle and high school knowledge about history, science, math, English, second languages, health, geography, art, music, and technology, and then teaches them the answer. |

Programming.

Teens for Living Healthy and Rewarding Lives - Early and middle adolescence is an exciting yet a challenging period in one's life. Adolescents across the demographic spectrum and from all walks of life grapple with a number of pivotal but normal developmental milestones, such as preparing for more independence and responsibility, and experiencing change in relationships with family and peers. With increased self reliance, young people make more of their own choices. And all the while, one cannot overlook that they grow in a dynamic, diverse, and complex world that offers both opportunities and social challenges. The goals of the series are to encourage the audience to: (1) explore, discover, and learn strategies to achieve personal dreams; (2) learn about the personal attributes important for achieving dreams; (3) explore volunteerism as an opportunity to build character and to uncover personal passions; and (4) gain knowledge about life skills necessary to "Live Life and Win!".

| Describe the educational and informational objective of the program and how it meets the definition of Core Programming. | On the Spot was created by the award-winning producers of the long running Educational and Informational show, Animal Atlas, now in its seventh successful season of national syndication. Last year, the National Governors Association and Council of Chief State Officers released the Common Core State Standards Initiative, an attempt to set a national curriculum to bridge the standards gap between states. The content of On the Spot, a 30-minute E/I program for teens ages 13+, is based on the Common Core State Standards. The show uses an entertaining on-the-street format to test how well young people know the information contained in their own national curriculum. Then, On the Spot explains the answer to each question. The pedagogical approach of testing first and explaining the answer second has been shown to enhance retention and understanding. On the Spot challenges viewers to recall middle and high school knowledge about history, science, math, English, second languages, health, geography, art, music, and technology, and then teaches them the answer. |
